March 12, 2015

To the Board of Directors of the Fort Bend County Toll Road Authority, Members of the Commissioners Court, and Citizens of Fort Bend County, Texas:

The Fort Bend County Auditor's Office is pleased to present the basic financial statements of the Fort Bend County Toll Road Authority (the "Authority"), a component unit of Fort Bend County, Texas (the "County"), for the fiscal year ended September 30, 2014. This report is submitted in accordance with Section 114.025 of the Texas Local Government Code and was prepared by the staff of the County Auditor's Office.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements.

Sandersen Knox and Company, L.L.P., has issued an unmodified ("clean") opinion on the Authority's financial statements for the year ended September 30, 2014. The independent auditors' report is located at the front of the financial section of this report.

Management's discussion and analysis ("MD&A") immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

Profile of the Authority

The Authority was created by the Fort Bend County Commissioners Court (the "Court") as a local government corporation pursuant to the Texas Transportation Code, to aid, assist, and act on behalf of the County in the performance of its essential government purposes, including toll road projects. The Board of Directors of the Authority includes five members appointed by the Court. All actions of the Authority are presented to the Court for approval.

The Authority's main office is located in Sugar Land, Texas, and has completed construction of two key components of the Fort Bend County Toll Road System, the first segments of the Fort Bend Parkway and the Fort Bend Westpark Tollway. The Fort Bend County Toll Road system offers new transportation options, relieving traffic congestion for commuters.

In November 2000, Fort Bend County citizens overwhelmingly approved a \$140 million bond issue to support revenue bond financing to pay for the construction of the two toll road projects. The four-lane, 6.2

mile, Fort Bend Parkway Toll Road, which opened August 2004, connects the Sam Houston Tollway (Beltway 8) with State Highway 6. The Fort Bend Westpark Tollway, which opened August 2005, ties into Harris County's Westpark Tollway just east of FM-1464 and continues west to the Grand Parkway for 6 miles. The Authority opened the 1.2 mile segment of the Fort Bend Parkway Toll Road in May 2014 that extended the toll road south of Highway 6 to Sienna Parkway. This toll road system provides seamless access to commuters through the use of an electronic toll tag issued by Harris County Toll Road Authority (EZ-TAG), Texas Department of Transportation (TxTag), or the North Texas Tollway Authority (TollTag).

The Fort Bend Parkway Toll Road and Westpark Tollway opened August 30, 2004 and August 10, 2005, respectively. The Authority opened 1.2 mile segment B-1 of the Fort Bend Parkway Toll Road in May 2014 that extended the toll road south of Highway 6 to Sienna Parkway. extension of the Westpark Tollway just east of Fulshear. The first segment of the Fort Bend Westpark Tollway was completed on August 10, 2005, and is located in the Houston metropolitan area of southeast Texas.

Additional information about the Authority is available on their website: <http://www.fbctra.com>.

Local Economy

Fort Bend County continues to experience improvement in the local economy for fiscal year 2014. This is evident by a modest increase in new home sales, labor force, and employment rate. The demand for services regarding the governmental functions performed by the County continues to increase at a greater rate. The Commissioners Court and the Authority use a conservative approach to the allocation of resources to serve the County's needs to ensure that Fort Bend County is prepared as the local economy improves. This ongoing conservative approach will allow the County and Authority to meet the service demands of the residents in Fort Bend County. This ongoing conservative approach will not reduce the level of service provided by the Fort Bend County Toll Road System to the residents.

Long-Term Financial Planning and Relevant Financial Policies

Budget

The Authority adopts a one-year budget through its fully coordinated financial planning process. The budget implements strategies, both financial and operational, identified through the strategic and long-range planning process to meet existing challenges and to effectively plan for future needs. The budget is a financial plan for a fiscal year of operations that matches all planned revenues and expenses with the services provided the citizens of the County based on the established budget policy. Decisions are not based solely on current conditions but on the long-term welfare of the community. The budget is developed and resources allocated based on the vision, mission, and goals of the Authority and County.

Long-Term Comprehensive Plan

The Authority's long-term plan is to manage, maintain, and expand the Toll Road System to enhance the County's master thoroughfare system. The future expansion of the system will be appropriately timed to meet the demand when financially feasible.

Capital Improvement Program

The Authority maintains a multi-year Capital Projects Plan that includes toll road mobility projects. These capital initiatives involve extension and improvement of the existing Fort Bend County Toll Road System.

Debt Policy

The purpose of the County's Debt Policy (which includes the Authority) is to establish guidelines for the utilization of debt instruments issued by the County and Authority whether payable from County taxes or payable from certain revenues of the County or Authority.

The County and Authority will ensure all uses of debt instruments are in compliance with all statutory requirements, and in accordance with the guidelines, outstanding ordinances, insurance covenants, and existing agreements. Further, the County and Authority will ensure that the utilization of any debt instrument provides the most prudent and cost-effective funding possible, taking all material matters into account.

Major Initiatives

In the fall of 2014, the Authority kicked off a \$10.1 million dollar Toll Conversion project that will upgrade the tolling system on the Fort Bend Parkway and the Westpark Tollway. The purpose of this Toll Conversion project is to remove and replace the outdated tolling infrastructure and equipment with upgraded equipment and facilities that are more accurate, efficient, and reliable. This change will make all of the tolling equipment on roads operated by the FBCTRA compatible. The Toll Conversion project is expected to be completed by the end of the summer in 2015.

During February 2015, the Authority began the \$30.3 million dollar Highway 6 Overpass project. The overpass bridge will connect the existing Fort Bend Parkway main lanes north of Trammel-Fresno Road to the main lanes south of Knight Road. The overpass will be a half mile long and will include entrance and exit ramps, as well as U-turn lanes located on either side of Highway 6. The project is scheduled to be completed by the end of 2016.

The Westpark Tollway expansion, currently under environmental review and design, will widen the existing two-lane, undivided road into a four-lane, divided highway. The project will extend the current four-lane controlled access tollway to the west from its current terminus at Grand Parkway/SH 99 through the FM 723/Spring Green intersection. In addition, the County will construct one-way, two-lane frontage roads on the north and south of the Westpark Expansion as non-tolled lanes. Construction is scheduled to begin in the summer of 2015 with completion by early 2018.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors
Fort Bend County Toll Road Authority
Fort Bend County, Texas

We have audited the accompanying financial statements of the Fort Bend County Toll Road Authority (the "Authority") as of and for the year ended September 30, 2014, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statement as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Fort Bend County Toll Road Authority as of September 30, 2014, and the changes in financial position and cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 1A, the financial statements present only the Authority and do not purport to, and do not, present fairly the financial position of Fort Bend County, Texas, as of September 30, 2014, the changes in its financial position, or, where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis on pages 3 through 7 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Authority’s basic financial statements. The introductory and other supplementary information sections are presented for purposes of additional analysis and are not a required part of the basic financial statements. The introductory and other supplementary information sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

FORT BEND COUNTY TOLL ROAD AUTHORITY MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Fort Bend County Toll Road Authority (the "Authority"), we offer readers of the Authority's financial statements this narrative overview and analysis of the financial activities of the Authority for the fiscal year ended September 30, 2014. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Overview of the Financial Statements

Management's discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority's basic financial statements include two components: the enterprise fund financial statements; and notes to the financial statements.

Enterprise Fund Financial Statements

The Fort Bend County Toll Road Authority is a local government corporation and a component unit of Fort Bend County (the "County"). It is a single-purpose government with one business-type activity. Because the Authority is a single-purpose government, this report only includes the required Management Discussion and Analysis, the Enterprise Fund financial statements and the notes to the financial statements. The Enterprise Fund financial statements consist of the Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position, and the Statement of Cash Flows.

The enterprise fund financial statements, which can be found on pages 11 through 13 of this report, are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to private-sector businesses.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the enterprise fund financial statements. The notes to the financial statements can be found on pages 14 through 20 of this report.

Financial Analysis

Net position may serve over time as a useful indicator of a government's financial position. In the case of the Authority, assets exceeded liabilities by \$72,302,410 at the close of the most recent fiscal year.

As of September 30, 2014, the Authority's net position included \$11,026,993 for investment in capital assets, less any related debt used to acquire those assets that is still outstanding. The Authority uses capital assets to provide services to citizens. Consequently, these assets are not available for future spending. Although the Authority's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the Authority net position, \$2,915,323, is restricted. This amount represents funds held by a trustee for debt service payments. The remaining balance of \$58,360,094 is unrestricted.

The Authority's assets exceeded its liabilities by \$72,302,410, resulting in an increase in net position of \$9,217,554 from the prior year. This increase is a result of an increase in revenues due primarily to increased utilization of the Fort Bend County Toll Road System, offset by a slight increase in operating expenses, as shown on the next page. The growth in net position is being maintained in the revenue fund for future maintenance and construction.

Net Position, Ending	<u>\$ 72,302,410</u>	<u>\$ 63,084,856</u>

At the end of the current fiscal year, the Authority was able to report a positive balance in net position. The same situation held true for the prior fiscal year.

Toll Road operations increased the Authority's net position by \$9,217,554. This increase is up from last year's increase of \$8,184,616. The key elements of the change in increase of \$1,032,938 in net position are as follows:

- Increase in toll revenue of \$1,870,579 primarily due to increased utilization.
- Increase in fees of \$643,841 due to increased maintenance costs of the system.

Toll Road revenues for fiscal year 2014 are graphically displayed as follows:

Total	<u>\$ 167,870,110</u>	<u>\$ 171,321,306</u>

The County and Authority received an insured rating of Aaa from Moody’s and Standard and Poors on the 2003 and 2004 Toll Road bond issuances, and uninsured ratings of Aa2 and AA+ from Moody’s and Standard and Poors, respectively. The County and Authority received uninsured ratings of Aa1 and AA+ from Moody’s and Fitch, respectively on the 2012 Refunding issue. The Authority received uninsured ratings of A2 and A+ from Moody’s and Fitch, respectively on the 2012 Senior Lien issue.

Economic Factors

The population of the County is estimated at 652,365 in 2014 and is expected to grow to 776,950 by 2020.

The number of households has increased to 220,070 in 2015 and is expected to grow to 255,510 by 2020. Mean household income for 2015 is \$172,088 and is estimated to rise to \$204,744 by 2020. Income per capita is currently at \$56,291 and is expected to grow to \$67,786 by 2020.

Mobility improvements continue to be a demand from the residents of Fort Bend County. The Authority is proceeding with several toll road projects that will enhance and compliment the County’s road system.

Requests for Information

This financial report is designed to provide a general overview of Authority’s finances for all of those with an interest in the Authority’s finances. Questions concerning this report or requests for additional financial information should be directed to Ed Sturdivant, County Auditor, 301 Jackson, Suite 701, Richmond, TX 77469, telephone (281) 341-3760.

FORT BEND COUNTY TOLL ROAD AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

These financial statements include all of the funds and activities of the Fort Bend County Toll Road Authority (the “Authority”). The Authority is a component unit of Fort Bend County, Texas (the “County”). Financial statements of the Authority are included as a discretely presented component unit in the County’s financial statements.

The Authority is organized under the Texas Transportation Corporation Act and the Texas Non-Profit Corporation Act. It was created to assist in the planning, designing, financing and building of County roads and highways. In particular, the Authority is to assist in the building and operation of the Fort Bend County Toll Road System. This Fort Bend County Toll Road System currently includes the Fort Bend Parkway Toll Road that extends from Sam Houston Parkway in Harris County to State Highway 6 in Fort Bend County near Sienna Plantation. It also includes the Westpark Tollway that extends from the Fort Bend County line to State Highway 99. The primary criteria for the inclusion of the Authority in the County’s reporting entity, is that of financial accountability. The Commissioners Court, as the elected governing body of the County, appoints the Authority’s governing body. The County has financial accountability because it appoints a voting majority of the Board and the County can impose its will. As such, the County is financially accountable for the Authority and the Authority is considered a discretely presented component unit of the County.

B. Implementation of New Standard

In the current fiscal year, the Authority implemented the following new standard:

GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* (“GASB 65”), establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources and deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. Implementation of GASB 65 is reflected in the financial statements and notes to the financial statements.

Also, with this implementation, deferred charges, which consist of bond issuance costs and were amortized over the term of the bonds, are no longer recognized, but are accounted for as an expense in the period incurred. Therefore, the beginning net position on the Statement of Activities has been adjusted to reflect the portion of deferred charges that were incurred in prior years.

Net Position, Beginning	\$ 64,515,621
Adjustment for Deferred Charges	<u>(1,430,765)</u>
Net Position, Restated	<u>\$ 63,084,856</u>

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accompanying basic financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. With this measurement focus, all assets and all liabilities associated with the operations of these activities are included in the statement of net position.

D. Cash and Cash Equivalents

The Authority's cash and cash equivalents consist of demand deposits and investment pools.

E. Receivables

Receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

F. Capital Assets

Capital assets consist of infrastructure, land, and construction in progress, that are used in the Authority's operations. All capital assets are valued at historical cost or estimated historical cost if actual cost was not available. Donated capital assets are valued at their estimated fair value on the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are charged to operations when incurred. Expenses that materially change capacities or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and related accumulated depreciation, if applicable, are eliminated from the respective accounts and the resulting gain or loss is included in the results of operations.

The Authority applies a half-year convention for depreciation on all capital assets. Therefore, one-half year of depreciation is charged to operations the first and last year that a capital asset is in service. Depreciation is computed using the straight-line method over an estimated useful life of 20 to 40 years.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual amounts could differ from those estimates.

H. Restricted/Unrestricted Net Position

It is the Authority's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

I. Date of Management's Review

In preparing the financial statements, the Authority has evaluated events and transactions for potential recognition or disclosure through March 12, 2015, the date that the financial statements were available to be issued.

NOTE 2 - DEPOSITS (CASH) AND INVESTMENTS

A. Authorization for Deposits and Investments

The Texas Public Funds Investment Act ("PFIA"), as prescribed in Chapter 2256 of the Texas Government Code, regulates deposits and investment transactions of the Authority.

In accordance with applicable statutes, the County has a depository contract with an area bank (depository) providing for interest to be earned on deposited funds and for banking charges the Authority incurs for banking services received. The Authority may place funds with the depository in interest and

non-interest bearing accounts. State law provides that collateral pledged as security for bank deposits must have a market value of not less than the amount of the deposits and must consist of: (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies; (3) other obligations, the principal and interest on which are unconditionally guaranteed or insured by the State of Texas; and/or (4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent. County policy requires the collateralization level to be at least 110% of market value of principal and accrued interest.

Commissioners Court has adopted a written investment policy regarding the investment of the Authority's funds as defined by the Public Funds Investment Act (Chapter 2256, Texas Government Code). The investments of the Authority are in compliance with this policy.

B. Concentration of Credit Risk

It is the County's policy to diversify its portfolio to eliminate the risk of loss resulting from a concentration of assets in a specific maturity (save and except zero duration funds), a specific issuer or a specific class of investments. The County manages adherence to this policy for the Authority. To achieve this diversification, the County will limit investments in specific types of securities to the following percentages of the total portfolio:

Investment Type	Maximum Investment %
Repurchase Agreements	up to 35%
Certificates of Deposit	up to 50%
U.S. Treasury Bills/Notes	up to 100%
Other U.S. Government Securities	up to 80%
Authorized Local Government Investment Pools	up to 80%
No Load Money Market Mutual Funds	up to 50%
Bankers Acceptances	up to 15%

As of September 30, 2014, 94.3% of the Authority's cash and cash equivalents were contained in demand deposit accounts.

C. Interest Rate Risk

Interest rate risk is the risk that changes in interest rates may adversely affect the value of the investments. The County monitors interest rate risk for the Authority utilizing weighted average maturity analysis. In accordance with its investment policy, the County reduces the Authority's exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio as a whole to no more than 3 years. At year-end, the Authority's cash and investment balances and the weighted average maturity of these investments were as follows:

	Fair Value	Weighted Average Maturity	Percentage of Total Portfolio
Demand Deposits	\$ 62,895,666	1	94.3%
Investment Pools:			
Texas CLASS	290,453	43	0.4%

Texas Cooperative Liquid Assets Securities System Trust (“Texas CLASS”) is a local government investment pool organized under the authority of the Interlocal Cooperation Act, chapter 791, Texas Government Code, and the Public Funds Investment Act, chapter 2256, Texas Government Code. Texas CLASS was established in 1996. Pursuant to the Trust Agreement, Texas CLASS is supervised by a Board of Trustees who are elected by the Participants. The Board of Trustees supervises the Trust and its affairs and acts as the liaison between the Participants, the Custodian and the Program Administrator.

Cutwater Investor Services Corp. serves as Program Administrator. Cutwater Investor Services Corp. is a subsidiary of Cutwater Asset Management. Texas CLASS is considered a '2a-7 like pool' under Governmental Accounting Standards Statement No. 31; it will operate the pool consistent with the SEC's Rule 2a7. It maintains a Net Asset Value of approximately \$1 per share.

The TexasTERM Local Government Investment Pool (“TexasTERM”) is organized in conformity with the Texas Public Funds Investment Act of the Texas Government Code. It provides for a fixed-rate, fixed-term investment for a period of 60 days to one year and includes TexasDAILY, a portfolio of the Local Government Pool, providing daily access to funds. An Advisory Board composed of participants in TexasTERM and other parties who do not participate in the Pool, has responsibility for the overall management of the Pool, including formulation and implementation of its Investment and Operating Policies. PFM Asset Management LLC (“PFM”), a leading national financial and investment advisory firm, is the investment advisor to the pool. TexasTERM's TexasDAILY portfolio is considered a '2a-7 like pool' under Governmental Accounting Standards Statement No. 31; it will operate the pool consistent with the SEC's Rule 2a7. It maintains a Net Asset Value of approximately \$1 per share.

Local Government Investment Cooperative (“LOGIC”) is a local government investment pool organized under the authority of the Interlocal Cooperation Act, chapter 791, Texas Government Code, and the Public Funds Investment Act, chapter 2256, Texas Government Code. The Pool was created in April, 1994 through a contract among its participating governmental units, and is governed by a board of directors, to provide for the joint investment of participant's public funds and funds under their control. LOGIC is considered a '2a-7 like pool' under Governmental Accounting Standards Statement No. 31; it will operate the pool consistent with the SEC's Rule 2a7. It maintains a Net Asset Value of approximately \$1 per share.

Wells Fargo 100% Treasury Money Market Fund seeks current income exempt from most state and local individual income taxes, while preserving capital and liquidity. It invests in high-quality, short-term money market instruments that consist of U.S. Treasury obligations.

Wells Fargo Government Money Market Fund seeks current income, while preserving capital and liquidity. It invests in high-quality, short-term money market instruments that consist of U.S. Government obligations and repurchase agreements collateralized by U.S. Government obligations.

D. Credit Risk

The County's investment policy, which includes the Authority, does not require investments to hold certain credit ratings issued by nationally recognized statistical rating organizations. As of September 30, 2014, the Authority's investments in Texas CLASS, Texas TERM, and LOGIC were rated "AAAm" by Standard and Poor's. The Authority's investments in both Wells Fargo Money Market Funds were rated "AAAm" and "Aaa-mf" by Standard and Poor's and Moody's Investments, respectively.

In the bond resolutions, the Authority has the following agreement for the benefit of the holders and beneficial owners of the bonds. The Authority is required to observe the agreement for so long as it remains obligated to advance funds to pay the bonds. Under the agreement, the Authority will be obligated to provide certain updated financial information and operational data annually, and timely notice of specified material events, and certain information to the Municipal Securities Rulemaking Board ("MSRB"). The MSRB has established the Electronic Municipal Market Access ("EMMA") system.

NOTE 6 - CONTINGENCIES AND COMMITMENTS

Litigation and Other Contingencies

The Authority is contingently liable with respect to lawsuits and other claims in the ordinary course of its operations. The settlement of such contingencies under the budgetary process would not materially affect the financial position of the Authority as of September 30, 2014.

NOTE 7 – STATEWIDE INTEROPERABILITY OF ELECTRONIC TOLL COLLECTIONS

The Fort Bend Grand Parkway Toll Road Authority (“FBGPTRA”) entered into an agreement by resolution on October 29, 2013 to participate in the Statewide Interoperability of Electronic Toll Collections with Texas Department of Transportation, Harris County (acting through Harris County Toll Road Authority), North Texas Tollway Authority, and Central Texas Regional Mobility Authority, for the collection of tolls from customers. The Fort Bend County Toll Road Authority joined the FBGPTRA in this agreement through a Joint Project Agreement with the FBGPTRA executed on February 19, 2014.

NOTE 8 – SUBSEQUENT EVENTS

The Authority issued \$45 million in first lien revenue bonds in December, 2014, to finance the construction of the Highway 6 overpass (\$33 million), purchase of right-of-way for Westpark-B extensions (\$11 million) and toll conversion project for Parkway-A and Westpark-A (\$4 million). This series was sold at a premium to allow funding for all components. The Authority plans to issue between \$60.1 million and \$68.5 million in first lien revenue bonds in the summer of 2015 for phase one of the Westpark Toll Way extension.

- (a) In August 2008, Parkway toll road became 100% EZ tag. Cash vault report did not agree with cost report for the months of December 2005, August 2006 and June 2007. The variance was due to bank adjustments which did not reflect on the cash vault report. HCTRA represents all adjustments were for Main Line Plaza location.
- (b) AVI & VPS do not breakdown revenue for Westpark toll road by location. Includes revenue for Moore Road East/West and Peek Road East/West.
- (c) Monthly AVI and VPS revenue minus credit tolls plus toll replacement reconciles to Recap report.
- (d) Breakdown by location of credit tolls not provided in historical reports, therefore total revenue adjusted for credit tolls. Beginning in June 2009, FBC paid for toll replacement. Breakdown by location of toll replacement not provided in historical reports, therefore total revenue adjusted for toll replacement. FY2009 increase in credit tolls attributable to January toll rate change - Greenwich Meantime went into effect rather than CST thus charging the new rates 6 hours earlier than allowable. FY2012 increase in credit tolls attributable to \$18,366 credit issued to Metro for the year. Another credit in the amount of \$4,365 was issued in December 2012 to patrons due to an accident on Westpark toll road.
- (e) Credit tolls are created at the McHard ramps on the Fort Bend Parkway which is very near the Main Line plaza. A credit is given to travelers who enter or exit at this ramp and go through the Main Line.
- (f) Toll violations are not broken down by location, therefore the amount disclosed represents total violation deposits for Parkway and Westpark for fiscal years October 1st thru September 30th.
- (g) Revenue consist of EZ tag fees, cash fees thru July 2008, violations, credit tolls and toll replacements.
- (h) Due to software issues Sienna Parkway revenue is included in the Fort Bend Grand Parkway revenue totals. The amount reported here is an allocation from the Grand Parkway based on a percentage that is determined quarterly. The software issues are expected to be resolved by the end of FY2015.

- (a) August 2008, Parkway toll road became 100% EZ tag. Historical cash vault reports does not provide breakdown of transactions by location. Cash transactions are the total of monthly cash transactions represented on the Cost Sheet provided by the Harris County Toll Road.
- (b) AVI & VPS do not breakdown transactions for Westpark toll road by location. Includes transactions for Moore Road East/West and Peek Road East/West.
- (c) Monthly AVI and VPS transactions reconciles to Cost report transactions posted less interop transactions.
- (d) Credit tolls are created at the McHard ramps on the Fort Bend Parkway which is very near the Main Line plaza. A credit is given to travelers who enter or exit at this ramp and go through the Main Line.
- (e) Due to software issues Sienna Parkway transactions are included in the Fort Bend Grand Parkway transaction totals. The amount reported here is an allocation from the Grand Parkway based on a percentage that is determined quarterly. The software issues are expected to be resolved by the end of FY2015.
